Clear, ultra-slim design

Large useable screen space

High Performance

The POS-316 EyePOS Pro impresses with the latest technology.
Inside a sleek aluminum chassis, an 11th generation Intel Tiger Lake processor provides the processing power, while a near borderless Full HD display shows your entire POS application in full width.
The POS-316 EyePOS Pro can either be attached to a pole with the VESA mount, or be mounted on the flexible stand. In both cases, the UCB-316 Powered USB Hub can provide the necessary connectivity, like several 12V and one 24V Powered USB port.
All-in-One Computer POS-316 EyePOS Pro

1. Fully flexible stand, for an ergonomic workplace

2. Elegant and sleek design with a nearly bezel-less Full HD Display and a depth of only 27mm

3. Elegant and sleek design, which is shared by the optional 11.1" MCP-311 or 15.6" MCM-316 customer displays

4. Core I/O ports on backside, with useful cable management solutions

5. Optional UCB-316 Powered USB Hub for extended connectivity

6. The UCB-316 Powered USB Hub can be used either stand alone or together with the POS-316 stand without modification
